Project Name	Visualizing Housing Market Trends using Talbue &Flask
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - *who are they?*	Describe the customer and their attributes here
I'm trying to	*List their outcome or "job" the care about - what are they trying to achieve?*	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – *what bothers them most?*	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – *what needs to be solved?*	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – *how does it impact them emotionally?*	Describe the emotions the result from experiencing the problems or barriers

Example:

Problem Statement(PS)	I am (Customer)	I'm trying	But	Because	Which makes me feel
PS-1	A real estate analyst	Analyze housing price trends and factors affecting house prices	I cannot easily understand patterns in housing data	The dataset contains many variables like bedrooms, bathrooms, floors, renovation, and house age	Confused and frustrated while making decisions
PS-2	A real estate company manager	Identify which housing features influence property prices	It is difficult to analyze large housing datasets manually	Traditional analysis methods are time-consuming and lack visualization	Inefficient and uncertain about market decisions
